NOTICE

March 31, 2021

The 31st Street construction project between Meyers Road and York Road is scheduled to begin within the next two weeks.

The project includes widening the intersections of 31st Street at Jorie Boulevard/Hunter Trails Parkway and the IL 83 ramps to add or extend turning lanes, new traffic signals at those intersections, miscellaneous traffic signal and sidewalk improvements at other intersections, and resurfacing from west of Meyers Road to west of York Road.

During construction, 31st Street will be reduced to a single lane in each direction plus turn lanes (where applicable) between Regent Drive/St. Paschal Drive on the west and the Salt Creek Bridge (east of Spring Road) on the east. Work to the west and to the east of that area will be carried out mostly with short-term lane closures as needed. Access to properties will be maintained throughout construction. When work occurs that will require removal and replacement of existing driveways, property owners will be notified in advance.

The project is scheduled to be substantially completed by the end of 2021.

If you have any questions or concerns about this project, please call the DuPage County Division of Transportation at (630) 407-6900.

Information and updates will be available on our website at:
